

WEEK 6 NEWSLETTER

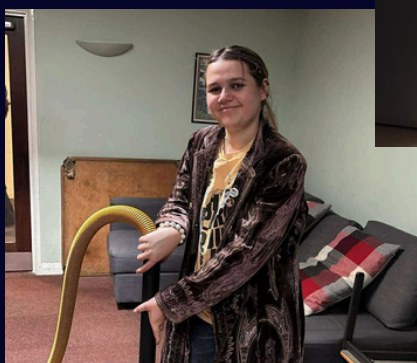

MIDDLE GROUND

On Monday we held our second middle ground of the year in collaboration with Law and Econ societies!! With questions centred around climate, people got to debate over questions like is degrowth the only way to move successfully toward sustainability?, and if banning lobbying was the only way to implement regulation and legislation successfully. It was great to listen to everyone's opinions on controversial topics, and was interesting to see how people's views changed as the debate went on.

Volunteering at LWS Night Shelter

Over the Weekend, PPE Society collaborated with the Homeless Action Society for providing volunteers for multiple shifts at the LWS Night Shelter, assisting with meal preparation, setup and guest support. The volunteers found the experience deeply rewarding, giving them a chance to engage directly with community.

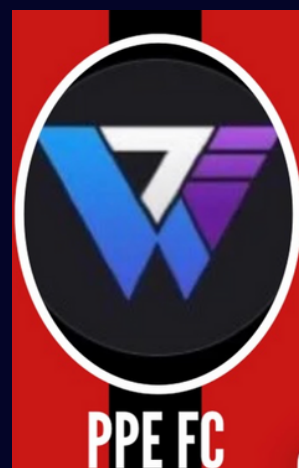

PUB QUIZ

Thursday evening saw a pub quiz in Varsity be hosted along by us and ESG. It was a close contest, with difficult questions being asked on sustainability, general affairs and philosophers, but the team 'F*ck the Green Belt' were crowned the winners with 28/40.

FOOTBALL RESULTS

PPE FC continue their incredible streak in the beginning of the season, staying unbeaten with a resounding 3-1 victory against Hellenic FC. Special performances from Cass and Stuart contributed to the win, but Conor got a deserved MOTM for scoring 2 well taken goals. The match saw 'boys turn into men,' and successful rage baiting from PPE society.
